VOLUME CVIII.--NO. 25. ALEXANDRIA, VA., TUESDAY EVENING, JANUARY 29, 1907. PRICE 2 CENTS.

Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are *starved* nerves. Dr. Pierce's Golden Medical Discovery *makes pure, rich blood*, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are toned up and invigorated, and you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are *lasting*.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery" has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential

Dr. Shoop's Night Cure is the Local.

Dr. Shoop's Restorative, the Constitutional.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, all tissue, and all blood ailments.

The "Night Cure", as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—as a general tonic to the system. For positive local help, use as well

JAMESTOWN EXPOSITOIN.

Norfolk, Va,, Jan. 28.—Through the courtesy of Mr. A. B. Sutton, Chief of Division of Exploitation, I most cordially request your visit to our exposition. Jamestown will be 300 years old on the 26th day of April, 1907. The exposition grounds are only 20 minutes ride from the city postoffice in Norfolk; ten cents is the present fare to the grounds. Norfolk is quite accessible by railroads, and I am led to believe ther ailroads and steamboats are going to make quite a low rate of fare which will give opportunity for the most ordinary and fastidious to visit the exposition. The hotel accommodations with moderate charges, equal to the best, both inside the grounds as well as those in close proximity, many surroundings and variety of hotels, boarding and snack houses, there will be room and feed for all in the vicinity.

The gentlemen who have the exposition in charge are men of the highest standing morally, socially and otherwise and are worthy of success. All the officers and their associates are worthy and their hearts are in their work; they are affable, courteous and generous.

Mr. A. L. Sutton is a southern gentleman in all its meaning, energetic and well worthy of the position he occupies. All inquiries as to literature etc. addressed to him will afford him pleasure to give to you such information as is inquired after, and well worthy for the asking, Mr. M. G. Weinschenk, is chief clerk to Mr. Sutton.

Capt. E. C. Currey is Adjutant of the Powhatan guard, department of police, Jamestown Exposition.

Considering what I have seen on the grounds for a week's stay here it will be successful, and the grandest exposition that you have ever seen. I have seen them all, from the centennial in 1876 to the St Louis Fair in 1904.

There is no question but what the exposition will be opened on the day and date advertised. Work is progressing finely and the buildings are being completed rapidly, and all will be ready for the grand opening, Pennsylvania State building, especialiy, which I am personally interested in. J. H. D.

THE FAMINE IN CHINA.

Mail reports from American consular officers in China which reached the State department yesterday regarding the famine and resulting conditions, still further confirm the stories of suffering and hardship among the people in the districts affected. In fact, Consul Hayes, at Nanking, says that the famine is ten times worse than any thing known in that part of the empire for the past 40 years. The Chinese officials, he says, upon information given him by the viceroy, admit their inability to cope with the situation.

The government is trying to help the starving people to keep their cattle, and to this end is taking oxen and buffaloes in pawn for two taels each, keeping them thus until next spring, when it will return them.

Consul General Rodgers, at Shanghai, advises the department that the reports as to the conditions appearing in the newspapers, both foreign and Chinese, are for the most part sustained by the investigations made by American naval officers. Furthermore, he says, an inquiry which he had made through entirely private sources gives the general conclusion that the famine will by March 1 be regarded as severe and perhaps more so than that of 1878, by which it is thought 10,000,000 lives were lost.

The report of Mr. Rodgers is accompanied by a statement by Dr. Henry M. Woods, of the Southern Presbyterian Mission at Hwai an Fue, who estimates that 10,000,000 people are affected by the famine, 4,000,000, of whom are starving. He says there are at present more than 500,000 refugees at Taingkiangpu, huddled in mat sheds, and that the pitiful sight is daily witnessed of parents offering their children for sale at from $2 to $4 each. Brigandage and robbery, he adds, are everywhere rife.

From many places comes news of riots of greater or less degrees while in Kaangesi a state bordering on actual rebellion is on, and so serious has the situation become that a goodly portion of the available military force of the Liang Kiang Yamen is now in the field.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a large tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation caused by a neglected cold; but Dr. King's New Discovery saved my life.' Guaranteed best cough and cold cure at E. S. Leadbeater & Son's drug store. 50c and $1.00. Trial bottle free.

Naked and Dying in the Snow.

Lying stark naked in the snow at the back of his home, at 18th avenue and 86th street, New York, Bath Beach, Ernest Raymond, a wealthy, retired builder, was found yesterday morning dying, with his throat cut, apparently with a piece of broken bottle. He succumbed to his injuries shortly after being taken into the house.

Raymond, who was 34 years old and an Englishman by birth, lived in one of the finest houses in Bath Beach with his wife and two young children. Shortly before 7 o'clock yesterday morning his wife Annie missed him from the bedroom. After searching the house she went into the garden, where she found him stretched out in the snow unconscious.

A peculiar circumstance about the tragedy is that Raymond's clothes were in the garage in the yard. Raymond, it is supposed got up early yesterday morning, dressed and without waking his wife stole out into the garden. After undressing in the garage he went out into the middle of the garden and cut his throat.

Raymond was one of the best known builders in Brooklyn. He was supposed to have amassed a considerable fortune.

Three years ago he broke down in health and a year later was compelled to retire from business. Overwork was believed to have been the trouble.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, JAN. 29. 1907.

MANY PEOPLE of divers tastes and passions form the inhabitants of the world. The large majority suffer from this or that distemper, some of which are benign and others malignant. The murder of Dr. Townsend on Staten Island a few nights ago was superinduced by one of the latter. It is now generally believed that the unfortunate physician was the victim of a street car conductor named Bell whose wife had died in a hospital after having been treated by Dr. Townsend. The young husband, like many other people, strangely attributed the death of his wife to the doctor who had no doubt resorted to every known means to save the young woman's life. Bell brooded over her demise and blinding himself to a law of nature which is continually cutting down old and young alike, was determined to lay the blame for the death of his betterhalf at the door of some person, and the physician who attended her in her last illness was selected as his victim. The tragedy is suggestive. Often, too often, when members of a household pay the debt of nature weak human beings cast about in their minds to find some one upon whom to place the blame. They are apt to imagine neighbor's children have introduced diseases which brought about death, or that the physician failed to use all his skill at the proper time. It is unfortunate that such people do not exercise more masculine minds.

J. J. HILL, E. H. Harriman and the republican policy of protection are assailed in the minority report against the Littauer compromise ship subsidy bill, which was filed in the House yesterday by Mr. Spight, of Mississippi, and bears the signatures of five democratic members of the House committee on merchant marine and fisheries. The report discusses the two lines which it is proposed to subsidize between the Pacific coast and the Orient, saying:

But when it is recalled that at Seattle, north of Cape Mendocino, is the existing steamship line owned by J. J. Hill, and south of it at San Francisco is the Harriman line, the Pacific Mail, we may begin to suspect that there is a "nigger in the wood pile." Who are J. J. Hill and E. H. Harriman? The former is the great railway magnate of Northern Securities notoriety, who tried to merge vast interests in violation of the law, and was only prevented by proceedings in court. Harriman is another leader of corporate wealth who controls more railway trackage than any other man in the world. Is it hard to guess who, under this bill, would pocket $1,400,000 of the people's money?"

This report, it would seem, contains more than a suggestion of graft and the democrats of the House should do all in their power to defeat the ship subsidy bill.

A DISPATCH from Belgrade, Servia, says the conspirators against King Peter have completed their plans for his removal, which will be accomplished by a military coup d'etat. No bloodshed it is said will be permitted to increase the disgrace which Servia still bears for the murder of King Alexander and Queen Drage. Although military force will be used passively, the king and his family will be quietly conveyed to the frontier and expelled from Servian soil. At the time appointed, the palace will be surrounded by soldiers to ensure the safe and peaceable accomplishment of the deposition. King Peter and his family, once out of the country, the overtures which the plotters have already commenced to obtain a foreign prince for the throne will enter a decisive stage. Peter's accession to the Servian throne was through one of the bloodiest deeds committed in modern times and his speedy overthrow was predicted when he became king. His assassination has been looked for since he ascended the throne on the principle that they that take the sword shall perish by the sword.

THAT Delaware is wedded to its whipping post, the subject of many years of agitation, was evidenced in the legislature yesterday, when the Senate bill providing for the post's abolition was reported unfavorably. It is not now likely that the bill will be heard of again at this session. All previous efforts to cut the post out of the State's criminal laws have proven futile. Delaware knows a good thing when she sees it and it would be a sad and expensive day for her to abolish a law which is the greatest deterrent of crime she has on her statute books.

PRESIDENT ELIOT, of Harvard, speaking to a meeting of Congregational ministers, at Boston, opposed everything that stands for finality in religion. He said there was an irresistible tendency towards the belief that truth cannot be fixed. If in all the range of philosophy and science no one believes that the end has been reached, why should the theologian imagine he has reached the end of theology? President Eliot's query is pertinent. Theology presents as vast a field for study as astronomy.

SENATOR HALE'S remark in the Senate today that Congress is behind with the session's work should be heeded in both branches. But with adjournment less than five weeks away there is probably little chance for other than routine legislation and this has been the plans of the leaders all the time. The 59th Congress made a record for legislative activity at its first session. This year it has been marking time and showing evidences of being willing to "stand pat" on past achievements.

From Washington.

(Correspondence of the Alexandria Gazette.)

Washington, Jan. 29.

It is the opinion of Congressmen the arraignment of the Standard Oil Company in the report of the Interstate Commerce Commission just made public, severe as it is, is merely cumulative in its effect. The report of Commissioner of Corporations Garfield early in December contained some of the charges now filed and prepared the public mind for the present disclosures. It was his knowledge of the monopoly held by the Standard in New England that induced Senator Lodge to offer his amendment to the rate bill making pipe lines common carriers and conferring upon the Interstate Commerce Commission the right to prescribe just and reasonable rates, regulations and practices. That is now the law and it is up to the Interstate Commerce Commission to enforce it. Practically the only remedy suggested by the commission to uproot existing wrongs and prevent others is that the government shall fix in the first instance the rates and regulations for the transportation of oil. This would require additional legislation and in the present situation in Congress, with only thirty more legislative days before the session comes to an end, it would seem to be impossible to expect the passage of any law on the subject at this term.

The Comptroller of the Currency today issued a call for reports on the condition of national banks at the close of business on Saturday, January 26.

So far as can be learned today the Pope has not demanded of the American government the resignation of either of the secretaries of the American embassy in Rome, on account of an alleged general melee that occurred at an orgy given by about thirty secretaries and other attaches of "all the embassies and legations" in Rome. The State department not only has not heard from the Italian governments but it has no information of the alleged orgy or that any of the American representatives were present. Henry White, American ambassador to Italy, will soon assume his new duties as ambassador to France and be succeeded by Lloyd C. Griscom, lately ambassador to Brazil. The first secretary of the American Embassy there is R. S. Reynolds Hitt, born in Paris, of American parents, and appointed from Illinois, the second secretary is Leonard M. Thomas, of Pennsylvania. Maj. Frank A. Edwards, of Pennsylvania, is the military attache, while Lieut Commander William L. Howard, of New York is the naval attache. According to the cabled press dispatches, the young diplomats were entertaining a number of ballot girls, one of whom struck with a bottle and perhaps fatally injured the secretary of the Spanish embassy because he threw salt in her eyes.

Senor Enrique Creel, the new ambassador from Mexico to the United States, arrived in the city at 12:30 o'clock today from Chicago. He was accompanied by Mrs. Creel, Senor Salado Alvarez, a new second secretary of embassy; Maj. Davila, Mexico's first military attache to the Washington embassy, and the ambassador's private secretary and suite. The ambassador was welcomed at the station by Senor Godoy, minister to Cuba, who arrived last week to be charge d'affaires till Mr. Creel's arrival; by Senor Davalos, first secretary, who has been charge d'affaires since the departure of Senor Casarus, the retiring ambassador, last June, and by other members of the embassy staff. It is expected that immediately upon his official presentation to the President and the Secretary of State the embassy will begin to shine with social brilliancy. Senor Creel's wealth, which lies in nearly all the big mining and financial enterprises of the republic of Mexico, reaches far into millions, he having become known as "the Rockefeller of Mexico." He is a native of Kentucky and began his career as a mining adventurer. It was stated at the embassy today that Senor Godoy, notwithstanding his special mission here, remains the Mexican minister to Cuba. He will remain here some time as counsellor of embassy, to make the ambassador familiar with American affairs, Senor Godoy having until last spring been first secretary of embassy here for several years.

The great demand throughout the country for an increased supply of currency notes of small denominations was brought to the attention of the Senate committee on finance today by United States Treasurer Treat and other treasury experts. They argued in favor of the issuance of gold certificates in denominations of $5 and $10. The present law prohibits such issue of less than $20. They also favored the retirement, in case their other recomenddations become effective, of a part of the silver notes of those values and their replacement by $1 and $2 notes. No action was taken by the committee.

Senator Morgan today submitted to the Senate committee on interoceanic canals a proposition for the reorganization of the isthmian canal commission. His plan, which was on the form of a tentative bill, provides for the appointment of the chief engineer as the head of the new commission with the title of director general. His assistants, to be the other members of the commission, are, according to the Morgan proposition, to be the heads of the several important departments on the Isthmus. The new commission is to hold six meetings annually on the isthmus. The administration bill which is being prepared by Senators Knox and Hopkins has not yet been completed.

Since the passage of the pure food bill farmers in Virginia and Maryland shipping meats and country produce into this city have experienced considerable difficulty in complying with the law, though they have no intention of violating its provisions. Mr. J. G. Hiden, secretary to Mr. Rixey, says if these farmers will write to him at No. 909 Sixteenth street N. W., he will procure for them the necessary tags etc., which they can attach to their shipments and which will save them much trouble.

It is raported here that the bill to regulate the sale of milk in Washington has behind it a lobby backed by the New York Milk Dealers Association, the object of which is to prevent the sale here of milk sent from Virginia and Maryland. When this milk is excluded then the New Yorkers will ship here and raise the price of the lacteal fluid.

A loss roughly estimated at three-quarters of a million dollars resulted from a fire which started just before midnight last night and burned out the garage of the New York Transportation Company, at Eighth avenue and west Forty-ninth street, New York. A charging plant for electric vehicles recently installed at great cost by the owners of the garage was badly damaged, if not ruined, and 100 automobiles owned by private parties were rendered worthless.

The car shortage in the West is causing a famine in ice which promises to have a serious effect over a large section of country next summer. On the Mississippi river, between Lacrosse and Lake Pepin, millions of tons of ice are harvested each winter to supply half a dozen northwestern and middle States. This year dealers are unable to get cars, and, as there are not sufficient storage facilities on the ground, the harvesting of ice for shipment has stopped. Dealers at Lacrosse and other Mississippi points predict that this will mean an ice famine of serious consequences next summer.

Gentlemen of a sportive turn in New York are offering to bet even that the Thaw case will never reach the jury, and that before it reaches the Salome stage it will be turned over to a commission in lunacy, as was done in the case of the negro murderer of the late Andrew H. Green, the father of Greater New York. Briefly, it is the opinion of many men about town that the possibilities in the line of scandal resident in the Thaw case are so great that the public welfare, as well as the ends of justice, would be better served by permitting a commission of experts to decide the question of Thaw's responsibility for the murder of White before any jury is permitted to decide questions of fact as to the killing.

The alleged baggage thieves held in New York and wanted in Richmond will make a vigorous fight against extradition.

A Council of Catholic Knights of Columbus was organized in Petersburg Sunday afternoon by Deputy State Organizer Dr. E. A. Gorman, of Alexandria. Dr. James M. Burke was elected Grand Knight.

While hunting yesterday afternoon, Geo. H. Dishner, a farmer, residing four miles west of Bristol, in Washington county, accidentally shot and killed his fourteen-year-old son, Jefferson Dishner. The father climbed a wire fence, and in lesping to the ground the hammer of his gun caught on a wire. A heavy charge of shot struck the boy in the breast. Death resulted two hours later.

John Cousins, 35 years old, was shot and instantly killed in Danville last night by George L. Steilman, a carpenter. The shooting took place at the home of Steilman, and he declares that Cousins had fired at him twice with a pistol and was attempting to enter his home when he killed him. The wife of Steilman was a witness of the killing. After the shooting Steilman surrendered to the police.

THE WIDE TIRE BILL.

If a bill passed by the House yesterday becomes a law, owners of vehicles of 4 000 pounds weight will be compelled, after January 1, 1908, to equip them with four-inch tires before the vehicles may be used on the streets of Washington.

Considerable opposition to the bill, principally on the part of Representative Jones, of Virginia, developed, and led by him, some of the democrats attempted to filibuster. However, they could not marshal enough votes to defeat the measure. Chairman Babcock, of the House District, of Columbia committee, offered a substitute, making the four-inch provision apply to wagons of more than 5,000 pounds burden, and providing that the law should go into effect the first of next year. To this Mr. Hepburn offered an amendment, putting the provision back to 4,000 pounds, as in the original bill.

Mr. Williams, of Mississippi, objected to the bill, saying that he did not think that the tires of wagons injured pavements so much as water and sun. Mr. Hepburn insisted that the District was being put to continual expense because of the wear on pavements from heavy traffic. Mr. Babcock said that it would cost the District enough to buy new wheels for all the heavy wagons in Washington if the pavements were to be torn up as they have been. Mr. Hepburn said that the opposition to the bill came from the Virginia brick haulers and the coal dealers. Mr. Williams said that most of the opposition that had come to his attention was from mill men. Mr Jones, of Virginia, said that it was not the wagons, but defected construction that made the pavements give way. When the bill was pressed to a vote, he showed a disposition to filibuster, demanding a division on yeas and nays on each vote on amendments. The Hepburn amendment making the limit of weight 4,000 pounds carried, 113 to 51, and the bill as amended passed by 137 to 44.

Railroad Rates.

Before the State Corporation Commission yesterday in Richmond W. B. Bevil general passenger agent of the Norfolk and Western Railway, was an interesting witness. He declared that the rates of the various roads were not fixed by any one road or set of individuals, but simply grow up with the industrial development of the country. The witness declared that the Norfolk and Western rates were now lower than ever before, and, asked to specify, said that the company now had a 2 1-3 rate for 1,000-mile distances; for summer excursions a rate of 1½ to 2½ cents; for conventions 2 cents a mile; for county and State fairs 1½ cents; for hospitals, asylums and normal schools 2 cents flat.

Replying to the question as to what are in general rate conditions in the whole country, the witness said that the conditions were about what they were in Virginia. He declared that the experiment, if tried in Virginia, would cause great loss to the roads. He justified his statement by saying that the density of population in Ohio was far greater than in Virginia, and would enable the railroads in Ohio to still do a profitable business, even at a reduced rate, while the roads in Virginia, according to witness, could draw little additional patronage from the sparsely settled population of this State. He said the people in Ohio were richer than those of Virginia as they got $13,000,000 annually in pensions, and could do more traveling.

Today's Telegraphic News

The Murder of Dr. Townsend.

New York, Jan. 29.—The police theory that John Bell, a street car conductor, murdered Dr. Charles Wilmot Townsend the prominent Staten Island physician, in revenge for the fancied wrong suffered through the death of his wife while being treated by the physician, a year ago, hinges now on the ability of Mrs. Townsend to identify the mild-mannered prisoner as the masked intruder who in the small hours of the night shot Dr. Townsend to death as he lay in bed Saturday morning.

Mrs Townsend has been too ill from shock to confront the suspect, although the police are holding him in custody on Staten Island until such time as Mrs Townsend's brother, Dr. Walser, permits the widow of the murdered man to undergo the ordeal. Bell is of slight build and little more than five feet in height. It is said that he had in his possession when arrested a dotted silk handerchief similar to that worn as a mask by Dr. Townsend's murderer.

If Bell killed the Staten Island physican for revenge, he planned the deed with an attention to dramatic detail that was remarkable.

The records of the S. R. Smith Infirmary, where Mrs. Bell died, show that the prisoner's wife was taken there on the evening of January 25, 1906. She was operated upon immediately by Dr. Townsend. Mrs. Bell died at four o'clock the following morning.

Between three and four o'clock on the morning of January 26, 1907, a year later, almost to the minute, Dr. Townsend's assailant entered his bed room, ordered the physician to "get up," and then shot him with cold-blooded deliberation.

A letter written by John Bell may be the needed link of evidence to fasten upon the street car conductor the murder of Townsend.

Detectives searching the home of the Bells in Brooklyn, where John Bell was arrested, discovered a letter signed by the prisoner and addressed to his brother Howard, which, apparently throws light on the Staten Island murder mystery. The letter was postmarked Brooklyn under date of January 26, although the detectives believe the letter was written on Friday. It was as follows:

Dear Howe, I take the pleasure to write you these last few lines to let you know that this is up to me and after eating a strawberry at this time of year I ought to be success ful. Howard, ask Grace at the proper time if she will have the inscription put on the headstone before burial and also see that he ring is on my finger and slippers on my feet, and the picture on my breast, sure. You can say this without hard feelings and if you never said a prayer before, say it now for me and Sis. Pray that I am justified in my act and that I may meet her (Sis) in heaven and that God will be merciful. May God bless you.

If the detectives have gained more information about the letter from Howard Bell, Chief Inspector McLaughlin will not divulge its nature. The theory now is that Bell, if it was he that killed Dr. Townsend, contemplated suicide but changed his mind when he saw a chance to escape.

A raincoat and derby hat similar to those Bell wore when seen on Staten Island, not long before the crime was committed, were found in the Hart street home.

The Thaw Trial.

New York, Jan. 29.—Subpoena servers of the district attorney's office have thrown a dragnet over New York to locate a woman who is said to have known what inspired Harry Thaw to take the life of Architect Stanford White. The missing woman is badly wanted by the prosecution is Mrs J. J. Caine. Mrs. Caine is a great friend of Evelyn Nesbit Thaw. Efforts to find her have failed. Mrs. Caine knows much of the early relations of Stanford White and the artist model, the first meetings of Harry Thaw and the flower girl, and the difficulties with the mother that grew out of the association of Evelyn and the young Pittsburg millionaire. When Mrs. Charles J. Holman, then Mrs. Nesbit, came to this city with little Evelyn, they went to live on west Twenty-second street. Mrs. Caine, a buyer for a Boston millinery house, lived at the same place. The Nesbits were in hard straits and Mrs. Caine helped them. Mrs. Caine knew all the circumstances of the first meeting with Stanford White and later with Harry Thaw. It was to Mrs. Caine that Evelyn unburdened her soul of her troubles and the cruelties and horrors she had to undergo.

With the completion of the jury the district attorney will make a motion to keep all witnesses for the prosecution and defense from the court room, and today may be the last day that Evelyn Nesbit Thaw and Mrs. William Thaw, mother of the defendant, may sit in court. If it is the intention of the defense to call them, as it is unofficially stated, they will have to be excluded from the trial chamber along with the other witnesses.

Harry Thaw's attorneys told him today that he must not interfere further in the selection of jurors. Late yesterday, Thaw rejected a juror who seemed to be more than acceptable to the defense, and when the young man told his counsel that the prospective juror would not be satisfactory to him, his lawyers plainly showed their resentment. He was told that he must give way to his counsel in the matter of picking out the jurors, where they seemed especially satisfactory to the counsel.

When court adjourned for recess, at one o'clock, eighteen talesmen had been examined in the morning session, and one juror was selected to occupy the tenth seat in the jury box.

Henky, is still under the fallen walls. Comrades of the dead men worked all last night searching the debris for the bodies. Several of the rescuers are working with hands and feet frostbitten and with nothing to eat except the sandwiches and hot coffee furnished by the Salvation Army. Several of the injured firemen who were taken to hospitals are in a serious condition.

The body of Henky was sighted at 11 o'clock and was recovered shortly afterwards.

Result of the German Election.

St. Petersburg, Jan. 29.—A resort to even more repressive measure by the government, which is certain to bring about a dead-lock between the ruling powers and the Douma as soon as the new parliament meets is predicted as one result of the recent German election, in which a severe blow was dealt the socialist cause. The Russian government feels greatly encouraged over the result of the German election. The Czar is convinced that the manifestation of sentiment against the socialists is indicative of a similar feeling among his own subjects. That being the case, the Goverment will not fear to resort to drastic measures to curb the douma.

A Negro Fiend.

Algoma, W. Va., Jan 29.—An unknown negro today went to the home of James Gibson, here, awoke Gibson and his wife, and threatened them with death if they did not open the door. Mrs. Gibson opened the door and the negro entered, knocked her down with the butt of a revolver and kicked her.

Mr. Long presented the credentials of the Kansan, who has just resigned from the lower House, and later escorted him to the Vice President's desk where he took the oath and received a cordial greeting. He was given a seat on the back row on the republican side.

"Carnation Day" was made conspicuous in the Senate by the small number of senators who wore the flower on their coat lapel. Not one was seen on the minority side of the chamber. Aside from the Vice President those who observed the day were Messrs. Platt, Dick, Knox and Curtis.

Mr. Hale, a member of the committee on appropriations, sounded a long note of warning that if night sessions, and possibly an extra session of Congress, were to be avoided, speaking would have to give way to the consideration of appropriation bills. "There are but 27 working days left," he explained, "and but one of these eleven big supply measures, carrying upwards of $800,000,000, has become a law." He said that never before in his long experience had there been such a condition.

Mr Beveridge, who had been previously granted permission to continue his child labor speech in explanation of the remark that he had already occupied two days, said he felt that the subject he dealt with warranted the time occupied.

The Senate this afternoon called upon the Interstate Commerce Commission for information in connection with its recent investigation into the block signal system.

The resolution of inquiry, which was unanimously agreed to was introduced by Mr Clay. It calls for the following specific information.

What extent the investigation took and the information acquired; whether it would be wise to require railways to equip their lines with the system, and the time required and cost to do it; the number of deaths on railways since 1900 and to what extent the number of accidents could have been diminished by the block system.

The measure codifying the criminal law of the United States, which for weeks has been the unfinished business of the Senate was sent to the calendar this afternoon without objection. Thus ends all prospects of its further consideration this session.

Mr. Beveridge's child labor speech drew the fire of a number of Senators. Mr. Overman disputed the accuracy of and affidavit of F. C. Robertson as to the conditions at the Salisbury, N. C., Cotton Mills.

Mr. Spooner thought that if Congress had the power to exclude child labor goods from Interstate Commerce, it could also exclude non-union good, or those not manufactured in obedience to an eight hour a day law.

The Senate this afternoon suspended all other business to pass a bill authorizing the Secretary of War to sell fodder, etc., at Fort Assiniboine, Mont., where 20,000 head of cattle have been driven by the blizzard. Starvation threatens them. The bill has already passed the House.

HOUSE.

Nearly every member of the House today wore, in honor of the late President McKinley, a red carnation when the House convened. Chaplain Couden offered the following prayer:

"We bless Thee, Almighty God, our Heavenly Father, for the life and character of our late lamented President McKinley, whom Thou called from the scenes and activities of this life to the realms above that yet lives a precious memory in our hearts. God grant his example may be an inspiration to us and to the coming generations to high and clean living in the home, in the republic and in our religious living."

An unsuccessful effort was made in the House today to get a vote on the million dollar loan to the Jamestown Exposition, contained in a Senate amendment to the urgent deficiency appropriation bill. Mr. Foster, (rep. Vt.), was the cause of the defeat in that he objected to a request for unanimous consent to take the bill from the Speaker's table for immediate consideration.

The bill now goes through the routine of consideration in committee and report before it reaches the calendar. The friends of the exposition, who have been actively campaigning in behalf of the loan, were greatly disappointed at Mr. Foster's unexpected objection.

The "solid South" and a number of republican farmers won a victory in the House today by amending the agricultural appropriation as to provide for "free seeds." Mr. Foster, (rep. Vt.), who had just knocked out the Jamestown loan, was in the chair and sustained a point of order against the amendment for free seeds. Mr. Foster explained he did this in order to have the House decide the point. Accepting the challenge, Representative Spight (dem. Miss.) appealed from the decision of the chair. The House voted by tellers not to sustain the chair, 136 to 83. Thus routed the opponents to free seeds gave up the fight.

New York Stock Market.

New York, Jan. 29.—After some irregularity in early trading, there was a general improvement in the stock market, chiefly due to covering of shorts by some of the larger room-traders, and the fluctuations closely resembled those of yesterday morning. The Hill stocks were the strongest features. Great Northern advanced two points and Northern Pacific, after early sales at 152¾ rose to 154¾.

Knox-McCook Wedding.

Reed Knox, son of Senator Philander C. Knox, of Pennsylvania, and Miss Bessie McCook, granddaughter of the late Capt. McCook, of the navy, were married last night at 9 o'clock in this city. The ceremony took place in the rectory of Christ Church, and was witnessed only by Dr. and Mrs. Frank H. Shultz, friends of the young people, who reside at the Rochambeau, and some intruding newspaper reporters of Washington. Rev. W. J. Morton, the rector officiated. The marriage had not been announced and was a surprise to the relatives and friends of the contracting parties. It is understood there was no objection to the marriage from the relatives of either the bride or the bridegroom. The young people have been sweethearts for several years, and it is thought their sudden desire to be married in Alexandria was prompted by a spirit of romance. The trip to Alexandria was made by trolley car, and the return to Washington the same way. Upon arriving in this city the party went at once to the rectory, 407 north Washington street, where the wedding was delayed for an hour by the absence of the rector. The marriage license was issued by Deputy Clerk of Courts Nevell S Greenaway, at his residence, on north Columbus street. Mr. Knox gave his age as twenty-six years and Miss McCook's as twenty-one years. Mr. and Mrs. Knox returned to Washington at 11 o'clock, and taking a carriage at the Mount Vernon station, Twelfth street and Pennsylvania avenue, were driven directly to the Shoreman, where a supper was served to the wedding party. Reed Knox holds the position of assistant clerk to the Senate committee on coast defenses, his salary being $1,440 a year. Senator Knox is chairman of this committee.

Assaulted by a Woman.

An old soldier named Stephen Clements was taken to the Alexandria Hospital last night by Officers Jones and Roberts bleeding profusely from cuts on his head which he said had been inflicted by a poker in the hands of Mary Gallahorn, who lives on west Wilkes street. Clements's wounds were dressed by hospital attendants, after which the injured man left for his lodgings. Officers Bell and Henderson later arrested the Gallahorn woman. She was brought before Justice Caton in the Police Court this morning when Clements gave his version of the assault, which he said was unprovoked. The woman, however, told an entirely different story. She said Clements, who lives in the house with the defendants, had attacked her with cause and that she was compelled to wield the poker in self-defense. The woman said this was not the first time Clements had assaulted her; that last year he had beaten her and broke her collar bone in three place. When asked if she was attended by a physician on that occasion, she replied no, and said she made liberal use of liniments and healed herself. Justice Caton continued the case till tomorrow morning. The police will in the meantime investigate the character of the house in which the plaintiff and defendant reside.

Presentation.

The employes of the various departments of the Washington division of the Southern Railway last night presented Mr. Charles S. Lake, the retiring superintendent of that division, with a handsome gold watch, chain and fob as an evidence of their high esteem. The presentation speech was made by Conductor Robert Sherman in the superintendent's office on Prince street, where Mr. Lake had been summoned to meet a large delegation of employes of the road. Mr. Lake responded in appreciative terms, and then said good-by to all present. He left this morning for Greensboro, N. C., to succeed W. S. Andrews, who recently resigned the office of superintendent of the Danville division to accept a position with the Queen and Crescent road. Mr. George V. Peyton, who will succeed Mr. Lake, has arrived here and took charge of the superintendent's office today. Mr. Peyton was formerly located here, and has recently been in charge of the Asheville division of the Southern. The changes are in the nature of promotions for Mr. Lake and Mr. Peyton.

Turned Over to Civil Authorities.

William S. Winebarger, the soldier in the 104th Company, Coast Artillery, who is alleged to have shot and killed Private Frederick Gosney, last Saturday night in Brown's saloon near Piscataway, Prince Georges county, Md., was turned over to the authorities of that county yesterday afternoon by the military authorities at Fort Washington. He is now held on the charge of murder. Winebarger had been confined at the fort since Sunday night, at which time he reported there and surrendered himself.

It is alleged that jealousy, aroused by Gosney's attentions to a young woman, led to the shooting. It is said that she was present in the upstairs room, where the trouble, which culminated in the death of Gosney, began.

It is expected that the prisoner will come to trial some time in April, at the next sitting of the Circuit Court.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Edward Travers, arrested by Officer Knight charged with disorderly conduct, was dismissed.

Luther Robinson, colored, arrested by Officer Knight charged with assaulting Jennie Johnson, was dismissed.

Mary Gallahorn, arrested by Officers Bell and Henderson charged with assaulting Stephen Clements, had her case continued.

Robert Smith, colored, arrested by Officers Beach Bell and Henderson charged with drawing a pistol upon Robert McCauley, was dismissed.

Benj. Motley and Elias Taylor, both colored, arrested by Officer Knight for disorderly conduct, were fined $5 each.

Personal.

The Gazette will be pleased to receive items, such as engagements, weddings, parties, teas and other news of personal interest for the "personal" column. The items should be indorsed with the name and address of the sender—not for publication, but as a matter of good faith.

Mr. Harry Hantzmon left here today for Charlottesville, where he has accepted a position as superintendent of the Charlottesville gas works. Mr. Hantzmon was accompanied by his family and will make his future home in that city. His many friends here while regretting his departure wish him unbounded success in his new field.

Thomas B. Murphy, formerly of Richmond, now of Alexandria, was a caller at the office of the governor today. Mr. Murphy served several terms in the general assembly here. He removed from this city to Westmoreland, where he engaged in oystering, farming and lumber operations. Mr. Murphy left at noon for his home.—[Richmond News Leader.

Miss Mary E. Carlin has returned from Ellicott City, Md., where she has been on a visit to her sister.

Mrs. Stewart Jamieson at her residence on south Columbus street yesterday evening very charmingly entertained the members of the Thursday Euchre Club.

Mrs. Mary M. Franklin, who for a number of years past has made her home in this city, will leave next week for Washington where she will make her future residence and where her sons, Mr. Harris Franklin and Dr. Edmund Franklin are in business.

Miss Nannie Fowle, formerly of this city, was the guest last week of Mrs. F. —, Harper on Prince street.

Mr. and Mrs. Joseph Fay, of Baltimore, spent Saturday and Sunday with ex-Mayor Strauss in this city.

A pretty wedding took place yesterday evening at 6 o'clock in the ballroom of the Shoreham Hotel, Washington, when Miss Augusta Notes, daughter of Mr. and Mrs. Marcus Notes, was married to Mr. Joseph Brandon, of New York. Mrs. Charles Duffy, of Alexandria, who was the matron of honor, wore a becoming gown of white duchess lace over white taffeta, the trimmings being of seed pearls. She carried a large bunch of La France roses. Miss Carrie Notes, a sister of the bride, and Miss Virginia Ale, of Alexandria, the small flower girl, wore dainty frocks of white point d'esprit over pink taffeta. Mr. Charles Duffey, of Alexandria, was one of the ushers.

Pigeon Perches on Grave.

The funeral of the late James E. McCracken, who died in Washington last week, was attended by the Red Men, of which organization the deceased was a member. The interment was in this city, and among the ceremonies at the grave was that of liberating a pigeon, indicating the flight of the spirit to another realm. The bird, however, sailed about the cemetery as loth to leave the inclosure, and it has since from time to time perched on the newly-made mound from which it was liberated.

Runkel Stock Company.

The Corrine-Runkel Stock Company opened a three nights engagement at the Colonial Theatre, Annapolis, Md., Monday night and was highly commented upon by press and public as being the strongest ever seen at that house. Standing room only prevailed. The company includes some of the best specialist artists on the road and their acts were fully enjoyed by all present. The company commences a three nights engagement at the Opera House on Thursday, January 31.

Milder Weather.

The weather is milder, the wind having changed to the south. The mercury stood at 16° at 7 o'clock this morning; as the day advanced the temperatue continued to rise.

The surface of the river presents a mass of broken ice which moves up and down with the tide. Steamers have no trouble in moving to and fro, but navigation by sailing vessels has been brought to a temporary close.

Helmet and Belt for Chief.

At a meeting of Alexandria Lodge, No. 758, B. P. O. E., at their hall last night, it was unanimously decided to present Chief George W. Pettey, of the fire department, a helmet and belt as evidence of the organization's appreciation of the services of this official to the city. This morning the presentation was made by a committee composed of Messrs. Thomas A. Fisher and C. B. Marshall.

New Elevator.

It was stated in the Gazette's Washington correspondence yesterday that an elevator is to be placed in the government building in this city. Sometime since Deputy Collector Geo. A. Nowland secured a proposal for installing a new elevator at the building. This estimate was then placed in the hands of Mr. James R Caton, to whose personal efforts can be justly attributed the success of this much need improvement.

Case Dismissed.

Robert Smith, colored, was arrested yesterday at the instance of Robert McCauley, also colored, whom he charged with drawing a pistol on him. Smith was brought before the Police Court this morning, when, according to the evidence, it appeared that Smith, instead of drawing a pistol drew a bottle, on his adversary. The accused was dismissed.

"I am only 82 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson, of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by E. S. Leadbeater & Sons, druggists.

The Colored Relief Society is doing a good work among the deserving poor and the thanks of the colored community are numerous. The services of Rev. McGoins had been dispensed with, as he is otherwise engaged. Anything that will help the course will be acceptable at 606 south Washington street or sent to Superintendent William A. Carter.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems, has welcome the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by E. S. Leadbeater & Sons, druggists.

THIS IS NOT

one of the contestants in the six days walking match at Madison Square Garden, New York.—This is a woman ironing—that is, she is ironing when she is not running to and from the stove changing irons—but most of her time is spent doing the latter.

Electric Flat Irons eliminate the "walking match."—They heat quickly, and stay hot, and maintain an even temperature all the time—no fire to keep going when the iron is not in use.

The Whiteley Murder.

A verdict of "willful murder" was rendered by a coroner's jury in London yesterday morning against Horace George Rayner, the man who shot and killed William Whitely, the Westbourne Grove merchant, January 24. But few additional facts developed at the inquest, and the motive of the crime remains a mystery, unless, as the police claim, it was a failure of an attempt to blackmail the merchant.

The sons and the old employes of the murdered man testified that they had never seen or heard of Rayner before the day of the tragedy. A witness testifying to the events immediately prior to the shooting said he heard Rayner say to Mr. Whiteley: "Are you going to give away?" Mr. Whiteley replied: "No." Rayner then said: "You are a dead man, Mr. Whiteley," and drawing a revolver from his pocket he fired, and the merchant fell dead without uttering a sound.

The detective inspector in charge of the case declared that all the evidence pointed to blackmail. He added that he had searched Mr. Whiteley's papers but had discovered no trace of anything relating to Rayner, but among the prisoner's papers were found documents showing that he was wanted by the police.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome nourishing, and satisfying. It's safe even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Pope Changes Position.

It is learned from an ecclesiastical source in Paris that as a result of the advice tendered to the Pope at Rome January 25 by five French prelates, including Bishops Touchett and Dadolle, the Pontiff has changed his position toward the church and state separation question in France, and will issue new instructions, which, it is believed, will make it possible to organize public worship under the supplementary church and state separation law introduced by Minister of Education Briand. Cardinal Richard, Archbishop of Paris, has sent telegrams to the members of the French Episcopate requesting them to attend another meeting in Paris. A preliminary assemblage of bishops, at which 30 were present, took place yesterday afternoon at the residence of M. Denys-Cochin, where the Cardinal has made his headquarters since he was compelled to leave the Episcopal Palace.
